A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in securities legislation, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

June 5, 2023

This Management Discussion of Fund Performance presents the views of Counsel Portfolio Services Inc. ("Counsel") on the significant factors and developments during the year ended March 31, 2023 that have affected the Fund's performance and outlook. For information on the Fund's longer-term performance, please refer to the *Past Performance* section of the report.

In addition, net asset value (NAV) refers to the value of the Fund or a series, as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks a steady stream of income with some emphasis on capital preservation by investing primarily in a globally diversified portfolio of exchange traded funds. The Fund may also invest in other mutual funds or in securities directly. The Fund's asset mix will generally be kept within the following ranges: 65-85% fixed-income securities and 15-35% equity securities

Risk

The risks of investing in the Fund remain as discussed in the Fund's Simplified Prospectus. The Fund is suitable for investors who: seek a global balanced fund to hold as key part of their portfolio; want a medium-term investment; can handle the volatility of stock and bond markets; and have a low tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund's Series A securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by series.

During the year, the Fund's Series A securities returned -1.75% (after deducting fees and expenses). This compares with a -1.12% return of a blended benchmark comprised of 17.5% MSCI World High Dividend Yield Total Return Index (returned 4.69%), 75% FTSE Canada Bond Universe Total Return Index (returned -2.01%), and 7.5% S&P/TSX Composite Dividend Total Return Index (returned -4.32%) (the "Blended Benchmark"). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses, and commissions, none of which are reflected in the index returns.

Global and Canadian equities fell over the period in local currency terms, driven lower by rising interest rates, volatile commodity prices and forecasts of economic weakness. Employment remained strong, and persistently high inflation led many global central banks to raise their policy rates significantly. Higher interest rates contributed to a crisis in the U.S. banking system in March 2023. In Canada, consumer spending was resilient. In fixed income, global yields rose sharply. Volatility in fixed income markets was heightened by the magnitude of central bank policy actions and by geopolitical tensions. Within the MSCI World (Net) Index, Denmark, Ireland and Spain were the strongest-performing markets, while Norway, Israel and Canada were the weakest. The Energy, Consumer Staples and Industrials sectors were the strongest performers, while Real Estate, Communication Services and Consumer Discretionary were the weakest.

The Fund outperformed the broad-based FTSE Canada Bond Universe Total Return Index. The broad-based index is comprised of fixed income securities and has no exposure to equity securities, whereas the Fund invests in equity and fixed-income exchange traded funds. Given the Fund's composition, the Blended Benchmark provides a more meaningful comparison. The Fund underperformed the Blended Benchmark due to its overweight allocation to Real Estate.

During the year, the U.S. dollar ("USD"), Euro ("EUR"), and British Pound ("GBP") appreciated 8.22%, 6.10%, and 1.88% respectively against the Canadian dollar ("CAD") contributing to the Fund's performance. The Japanese Yen ("JPY") depreciated 0.78% against the CAD detracting from the Fund's performance.

Net Assets

The Fund's NAV declined by \$0.1 million, or 0.4%, to \$20.5 million as at March 31, 2023, from \$20.6 million at March 31, 2022. Of this decrease, \$0.2 million was attributable to investment performance (after deducting fees and expenses) and partially offset by a \$0.1 million increase due to net sales.

Fees and Expenses

The annualized management expense ratios ("MER") for Series A and F during the year ended March 31, 2023, were lower than the MER for the year ended March 31, 2022. Total expenses paid may also vary from period to period mainly as a result of changes in average assets in each series. The MERs decreased due to management fee reductions as noted in the *Series Information* section of the report. The MERs for all series (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

Recent Developments

Late in the period, global economic growth picked up, supported by a warm winter in Europe and the end of China's "zero-Covid" policy. Purchasing Manager Indexes ("PMIs") suggest that real activity in advanced economies continues to shrug off the effects of higher interest rates. According to the flash PMIs, GDP and employment growth both got off to a strong start in Q2 2023, even amid the banking sector turmoil. Mitigating this tailwind is the fact that inflationary pressures are no longer easing, meaning that central banks may need to raise interest rates a bit further in order to deflate wage pressures and bring sticky core inflation back to target. However, Counsel's portfolio management team believes that the majority of central banks globally have now reached or are approaching the end of their cycle of rate increases. The team expects that a systemic banking crisis will be avoided, but that a further tightening in credit conditions will nonetheless add to pressures on the global economy that we already expected to slip into recession later this year. With that in mind, we expect equities to struggle from here. Supporting this view is a group of financial conditions indices that the team tracks which show that financial conditions in advanced economies are about the tightest that they have been since the Global Financial Crisis in 2008-09 and so are likely to act as a headwind to economic activity. Despite market expectations, the team does not expect interest rate cuts in the near term.

On April 3, 2023, The Canada Life Assurance Company announced an agreement to acquire Investment Planning Counsel Inc. (the parent company of Counsel). The transaction is expected to be completed within 2023. Counsel will continue operate as manager of the Counsel Funds and the agreement is not expected to impact the Fund's operations.

The Fund is slightly overweight fixed income relative to its neutral weighting. Within the fixed income allocation, the Fund is overweight high yield bonds relative to its neutral weighting. The Fund is expected to remain unhedged against foreign currencies subject to Counsel's discretion based on its assessment of currency market conditions.

Effective March 31, 2023, KPMG LLP was appointed as the auditor of the Fund.

Related Party Transactions

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The Manager also used the management fees to fund trailing commissions and other compensation (collectively, "Distribution Related Payments") paid to registered dealers and brokers whose clients invest in the Fund.

The following dealers affiliated with Counsel may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

Counsel used approximately 42% of the total management fee revenues received from all Counsel funds to fund Distribution Related Payments to registered dealers and brokers. In comparison, such Distribution Related Payments for the Fund represented 65% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series. The higher proportion of Distribution Related Payments is primarily attributable to the lower management fee paid by the IPC Essentials Portfolios.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

Portfolio Transaction Services

Mackenzie Financial Corporation, an affiliate of Counsel, provides portfolio transaction services to the Fund when the Fund invests directly in exchange traded funds. The Fund pays no brokerage fees to Mackenzie for these services.

Other Related Party Transactions

During the year, the Fund relied on standing instructions from the Counsel Funds' Independent Review Committee ("IRC") with respect to investments in ETFs managed by Mackenzie Financial Corporation, an affiliate of Counsel. The Fund received a rebate from Mackenzie for the management fees charged by these ETFs.

Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Returns for each series primarily differ because fees and expenses vary for each series. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The bar charts show how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The charts illustrate how the Fund's performance has changed over time.

(1) The Blended Benchmark is composed of 75% FTSE Canada Universe Bond Index, 17.5% MSCI World High Dividend Yield Total Return Index and 7.5% S&P/TSX Composite Dividend Total Return Index. The return of the Blended Benchmark will not equal the proportionate sum of the returns of its components due to monthly rebalancing factored in the calculation of the Blended Benchmark's returns.

The FTSE Canada Universe Bond Index is a broad measure of the total return of Canadian bonds that mature in more than one year. It includes a broad range of Canadian federal, provincial, municipal and corporate bonds rated BBB or higher.

The MSCI World Total Return Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets.

The S&P/TSX Composite Dividend Index aims to provide a broad-based benchmark of Canadian dividend-paying stocks. The index includes all stocks in the S&P/TSX Composite with positive annual dividend yields as of the latest rebalancing of the S&P/TSX Composite.

- (2) Inception dates vary by series.
- (3) The returns of the Blended Benchmark since inception for each applicable series are: Series A 2.60, Series F 2.60, Series I 2.60, and Series Private Wealth -0.15.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS. The net assets presented here in this table and in the financial statements may differ from the NAV; an explanation of these differences can be found in Note 3 of the Fund's Financial Statements.

(2) NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

(3) Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.

- (2) MER and MER before waivers or absorptions ("Gross MER") are based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by decreases and/or increases in management fees and/or administration fees as discussed under Series Information. Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of the daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.
- (4) The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.

Series Information

Series Private Wealth 5	October 19, 2020	_	_	0.15

(1) Series A is the only series subject to sales charges. Securities may be subject to a negotiated fee of up to 5% at time of initial purchase.

(2) A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor.

(3) The management fee for this series is 0.35% and is payable directly to Counsel generally through the monthly redemption of securities.

(4) Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors. Effective June 15, 2022, all management fee rates were reduced 0.10% to rates stated above.

(5) There are no management fees for Series Private Wealth. An investor must enter into an agreement to participate in a discretionary managed program offered by IPC Securities Corporation and agree to pay certain asset-based fees.

(6) These series are designed for investors who want to receive a fixed per security monthly distribution.
