A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

November 13, 2023

This Management Discussion of Fund Performance presents the views of Counsel Portfolio Services Inc. (“Counsel”) on the significant factors and developments during the period ended September 30, 2023 that have affected the Fund’s performance and outlook. For information on the Fund’s longer-term performance, please refer to the *Past Performance* section of the report.

In addition, net asset value (NAV) refers to the value of the Fund or a series, as calculated for transaction purposes, on which the discussion of Fund performance is based.

Results of Operations

Investment Performance

The performance of the Fund’s Series A securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by series.

During the six-month period, the Fund’s Series A securities returned –2.87% (after deducting fees and expenses). This compares with a –2.49% return of blended benchmark comprised of 45% FTSE Canada Universe Total Return Index (returned –4.53%), 40% S&P/TSX Composite Total Return Index (returned –1.13%) and 15% MSCI World High Dividend Yield Total Return Index (returned 3.03%) (the “Blended Benchmark”). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses, and commissions, none of which are reflected in the index returns.

Canadian equities declined over the period, driven lower by rising interest rates and slowing economic growth. With inflation persisting at elevated levels and the labour market remaining strong, the Bank of Canada raised its policy rate by 50 basis points to 5.00%. Government and corporate bond prices fell in response to higher rates. Global equities increased as other central banks slowed the pace of their interest rate increases. The global economy proved resilient, and employment remained strong. Within the S&P/TSX Composite Index, Healthcare, Energy and Information Technology were the strongest sectors, while Communication Services, Utilities and Materials were the weakest.

The Fund underperformed the broad-based S&P/TSX Composite Total Return Index. The broad-based index is comprised of Canadian equities and has no exposure to fixed income securities, whereas the Fund invests in both equities and fixed-income securities. Given the Fund’s composition, the Blended Benchmark provides a more meaningful comparison for relative performance. The Fund underperformed the Blended Benchmark due to being underallocated to Global Dividend stocks and the Fund’s investment in Counsel Global Real Estate.

During the period, the Euro (“EUR”), Japanese Yen (“JPY”), and British Pound (“GBP”) depreciated 2.17%, 10.85%, and 1.29% respectively against the Canadian dollar (“CAD”) detracting from the Fund’s performance. Selected partial hedging positions held against the EUR and GBP, held during the period in its underlying equity funds, served to slightly offset this impact. The U.S. dollar (“USD”) appreciated 0.36% against the CAD contributing the Fund’s performance. As of period-end, the underlying equity funds maintained a target hedge of 25.0% against the GBP but were otherwise unhedged.

Net Assets

The Fund’s NAV declined by \$34.2 million, or 8.4%, to \$373.1 million as at September 30, 2023, from \$407.3 million as at March 31, 2023. Of this decrease, \$23.5 million was attributable to net redemptions, \$10.0 million to investment performance (after deducting fees and expenses), and \$0.7 million to distributions paid in cash to investors.

Fees and Expenses

The annualized management expense ratios (“MER”) for Series A, B, F, FB, FT, Private Wealth I and T during the period ended September 30, 2023, were lower than the MER for the year ended March 31, 2023. Total expenses paid may also vary from period to period mainly as a result of changes in average assets in each series. The MERs decreased due to management and administration fee reductions as noted in the *Series Information* section of the report. The MERs for all series (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

Recent Developments

Late in the period, equity markets began to reverse earlier gains as bond yields continued to rise due to the market expectations that rates would remain higher for longer and consensus expectations for rate cuts were pushed further into 2024. U.S. Federal Reserve officials suggested interest rates could remain high for longer than previously expected, with one more rate increase possible in 2023. While the Counsel portfolio management team sees a weaker economy weighing on equities through the early part of 2024 and steeper rates cuts than the market expects in 2024, we expect any recession to be mild and short-lived. Counsel believes that would clear the way for the U.S. stock market, in particular, to prosper in 2024. In contrast, the team believes that Canada may outperform the United States over the coming quarters because of key imbalances in the Canadian economy, including highly indebted households and overvalued housing prices. An imminent pullback in consumer spending combined with a deepening housing correction raises the prospect of a deeper recession.

On April 3, 2023, The Canada Life Assurance Company announced an agreement to acquire Investment Planning Counsel Inc. (the parent company of Counsel). The transaction is expected to be completed prior to the end of 2023. During the initial period following completion of the transaction, Counsel will continue to operate as manager of the Counsel Funds and no material changes to the Fund’s operations are expected. However, there will be changes to the membership of the Fund’s Independent Review Committee and Counsel’s Board of Directors in connection with the completion of the transaction.

The Fund is slightly overweight fixed income relative to its neutral weighting. Within the fixed income allocation, the Fund is overweight high yield bonds relative to its neutral weighting.

In October 2023, Counsel reduced its period-end 25% hedge against the GBP to 12.5% and also introduced a 45% hedge against the USD in the underlying equity funds. Currency hedging is dynamic and may vary between 0-100% at our discretion based on our assessment of currency market conditions.

Related Party Transactions

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund’s management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The Manager also

used the management fees to fund trailing commissions and other compensation (collectively, "Distribution Related Payments") paid to registered dealers and brokers whose clients invest in the Fund.

The following dealers affiliated with Counsel may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation, Investors Group Financial Services Inc., and Quadrus Investment Services Ltd.

Counsel used approximately 41% of the total management fee revenues received from all Counsel funds to fund Distribution Related Payments to registered dealers and brokers. In comparison, such Distribution Related Payments for the Fund represented 49% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series. The higher proportion of Distribution Related Payments is primarily attributable to the higher proportion of retail investors in series which pay a trailer fee compared to other Counsel Funds.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

Other Related Party Transactions

During the period, the Fund relied on standing instructions from the Counsel Funds' Independent Review Committee ("IRC") with regards to asset re-allocations.

Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Returns for each series primarily differ because fees and expenses vary for each series. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

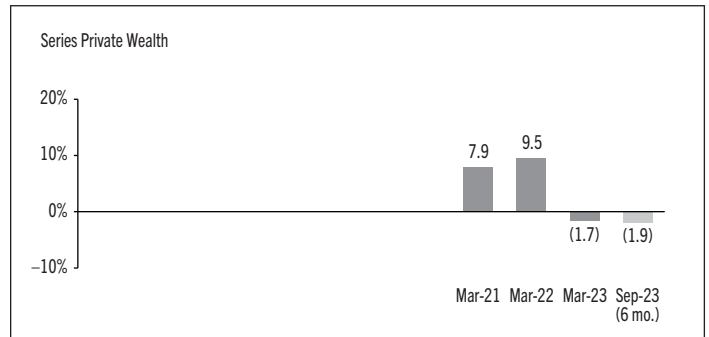

Year-by-Year Returns

The bar charts show how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The charts illustrate how the Fund's performance has changed over time.

- These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS. The net assets presented here in this table and in the financial statements may differ from the NAV; an explanation of these differences can be found in Note 3 of the Fund's Financial Statements.
- NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.
- Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.

(2) MER and MER before waivers or absorptions ("Gross MER") are based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by decreases and/or increases in management fees and/or administration fees as discussed under Series Information. Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of the daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

(4) The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.

- (1) Series A, B, and T are the only series subject to sales or redemption charges; these charges are based on purchase options chosen. Securities purchased under the sales charge option may be subject to a negotiated fee of up to 5% at time of initial purchase. Securities previously purchased under the redemption charge purchase option may be subject to a redemption fee of up to 4.5% (based on date of initial purchase); new securities are not available under this option but may be acquired through switching from other Counsel funds. Effective June 15, 2022, the series' management fee and administration fee was reduced from 1.95% and 0.25% respectively.
- (2) These series are designed for investors who want to receive a fixed per security monthly distribution.
- (3) A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor. Effective June 15, 2022, the series' management fees was reduced from 0.95% (including Series I, IB, and IT management fees which are charged directly to investors).
- (4) This series is designed for investors who want to receive a monthly cash distribution at an annualized rate of up to 6% per year.
- (5) The management fee for this series is 0.75% and is payable directly to Counsel generally through the monthly redemption of securities.
- (6) Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors. Individual investors may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus.
- (7) This series is available solely to those investing through a private client service offering from IPC Investment Corporation and IPC Securities Corporation. On October 27, 2023, Series Private Wealth I securities were redesignated as Series F securities, resulting in a consolidation of these series' assets.
- (8) There are no management fees for Series Private Wealth. An investor must enter into an agreement to participate in a discretionary managed program offered by IPC Securities Corporation and agree to pay certain asset-based fees.
