

Annual Management Report of Fund Performance

For the Year Ended March 31, 2025

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by calling toll-free at 1-877-216-4979, by writing to us at 255 Dufferin Ave., London, Ontario, N6A 4K1, or by visiting our website at www.counselportfolios.ca or the SEDAR+ website at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset value per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

IPC PRIVATE WEALTH VISIO GROWTH POOL

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2025

Management Discussion of Fund Performance

June 4, 2025

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the performance and outlook of IPC Private Wealth Visio Growth Pool (the "Fund") in the financial year ended March 31, 2025 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "CLIML" and "the Manager" refer to Canada Life Investment Management Ltd., which is an indirect, wholly owned subsidiary of The Canada Life Assurance Company ("Canada Life"). From the beginning of the period until September 30, 2024, Counsel Portfolio Services Inc. ("Counsel") was the manager of the Fund. On October 1, 2024, Counsel was amalgamated with CLIML, whereupon CLIML, which is the amalgamated company, became the Fund's Manager. The Manager has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of the Manager and Canada Life, for administrative services. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

Investment Objective and Strategies

The Fund seeks to provide investors with long-term capital appreciation by investing either directly, or through securities of other investment funds, in equity and fixed income securities of a variety of North American and international issuers. The Fund's asset class weightings will generally be 70%–90% in equity securities and 10%–30% in fixed income securities.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for medium-term investors looking for a global balanced fund to hold as a key part of their portfolio, who can handle the volatility of stock and bond markets, and who have a low to medium tolerance for risk.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's Series A securities returned 6.4% (after deducting fees and expenses paid by the series). This compares with a return of 13.0% for a blended index composed of a 53% weighting in the Fund's broad-based index, the MSCI World (Net) Index (returned 13.7%), a 27% weighting in the S&P/TSX Composite Index (returned 15.8%) and a 20% weighting in the FTSE Canada Short Term Bond Index (returned 7.1%). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equity market performance was mixed over the period in response to shifting expectations regarding central bank monetary policy and geopolitical tensions. Rate cuts by the U.S. Federal Reserve and the European Central Bank helped investor sentiment in the United States and Europe. Currency movements generally boosted returns in Canadian dollar terms. Canadian equities rose despite volatility, with record-high gold prices supporting mining stocks and declining interest rates helping bank stocks. Canada's unemployment rate rose to 6.6%, highlighting labour market weakness. In response to weak economic data, the Bank of Canada reduced its policy rate seven times to 2.75% from 5.00%.

Within the MSCI World (Net) Index, Africa and the Middle East and North America were the best-performing regions in Canadian dollar terms, while Japan and Asia Pacific (ex Japan) were the weakest. The financials, utilities and communication services sectors were the strongest performers, while materials, health care and consumer discretionary were the weakest.

Within the S&P/TSX Composite Index, materials, financials and information technology were the best-performing sectors, while health care, communication services and industrials were the weakest.

The Fund underperformed the broad-based index, with stock selection in North American equities detracting from performance. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

The Fund underperformed the blended index. The Fund's asset allocation contributed to performance, while the selection of underlying funds within each asset class detracted from performance.

Among the underlying funds in the portfolio, the largest detractor from relative performance was IPC Private Wealth Visio North American Equity (representing 56.7% of net assets at period-end).

Over the period, in the expectation that Canadian interest rates will continue to decline as the Bank of Canada lowers policy rates, the Manager added allocations to BMO Aggregate Bond Index ETF and Vanguard Canadian Long-Term Bond Index ETF to provide additional duration exposure (sensitivity to changes in interest rates).

During the period, the U.S. dollar ("USD"), euro ("EUR"), Japanese yen ("JPY") and British pound ("GBP") appreciated 6.20%, 6.51%, 7.25% and 8.72%, respectively, relative to the Canadian dollar ("CAD"), contributing to the Fund's performance.

Net Assets

The Fund's net assets increased by 72.5% during the period to \$108.8 million. This change was composed primarily of \$6.4 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and an increase of \$39.4 million due to net securityholder activity (including sales, redemptions and cash distributions).

Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2025, was generally similar to the MER for the year ended March 31, 2024. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

Even amid the tariff-driven economic slowdown, the Manager continues to expect slow but positive growth in 2025. The Manager believes the spring 2025 global equity correction shares characteristics with past episodes when inflationary pressures and restrictive trade policies dampened sentiment, leading to weakness before eventual stabilization. Thus, the Manager maintains a positive long-term outlook for equities. However, escalating trade tensions have led the Manager to lower its expectations for U.S. equities, while recognizing the potential for recovery

IPC PRIVATE WEALTH VISIO GROWTH POOL

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2025

once macroeconomic fears abate. Given the ongoing market uncertainty, the Manager has emphasized the Fund's sector diversification to mitigate risk and maintain long-term exposure to cyclical recovery opportunities.

The Fund is expected to remain unhedged against foreign currencies, subject to the Manager's assessment of currency market conditions.

Effective October 1, 2024, the manager, trustee, portfolio manager and promoter of the Fund, Counsel, amalgamated with CLIML, whereupon the amalgamated company, named CLIML, continued to serve as the manager, trustee, portfolio manager and promoter of the Fund.

Related Party Transactions

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager in part to pay Mackenzie for investment advisory services, including managing the investment portfolio and providing investment analysis and recommendations, making investment decisions, and making brokerage arrangements for the purchase and sale of the investment portfolio.

The Manager is responsible for paying certain administrative costs and all trailing commissions and any other compensation (collectively, "distribution-related payments") paid to registered dealers and brokers whose clients invest in the Fund. The following dealers affiliated with the Manager may be entitled to distribution-related payments from the Manager on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation, Investors Group Financial Services Inc. and Quadrus Investment Services Ltd.

The Manager used approximately 40% of the total management fee revenues received from all funds managed by CLIML to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 35% of the management fees paid by applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series. The lower proportion of distribution-related payments is primarily attributable to the higher proportion of retail investors in series that do not pay a trailer fee compared to other funds managed by the Manager.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in the management fees. See also *Management Fees*.

Other Related Party Transactions

At March 31, 2025, the Fund had \$25.0 million (22.9% of the Fund's NAV) invested in underlying funds managed by Mackenzie. In making the investment(s), the Manager relied on a standing instruction from the Counsel Funds' Independent Review Committee. The Manager's policies are designed to ensure that any related party transaction (i) is made free from any influence by an entity related to the Manager and without taking into account any considerations relevant to an entity related to the Manager; (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (iii) achieves a fair and reasonable result for the Fund.

During the period, the Manager relied on standing instructions from the Counsel Funds' Independent Review Committee with regard to asset reallocations.

During the period, the Fund received \$0.04 million in income distributions from investments in exchange-traded funds ("ETFs") managed by Mackenzie to offset fees paid within those ETFs. There is no assurance that these distributions will continue in the future.

Past Performance

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Series Information*.

IPC PRIVATE WEALTH VISIO GROWTH POOL

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2025

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2025. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

Percentage Return: ¹	1 Yr	3 Yr	5 Yr	10 Yr	Since Inception ²
Series A	6.4	6.2	n/a	n/a	7.0
Series F	7.5	7.3	n/a	n/a	8.1
Series I	8.6	8.3	n/a	n/a	9.2
Series Private Wealth	8.6	8.3	n/a	n/a	9.2
Blended Index	13.0	9.7	n/a	n/a	Note 3
MSCI World (Net) Index*	13.7	12.7	n/a	n/a	Note 4
S&P/TSX Composite Index	15.8	7.8	n/a	n/a	Note 5
FTSE Canada Short Term Bond Index	7.1	3.7	n/a	n/a	Note 6

* Broad-based index

The blended index is composed of 53% MSCI World (Net) Index, 27% S&P/TSX Composite Index and 20% FTSE Canada Short Term Bond Index.

The MSCI World (Net) Index represents large- and mid-cap equity performance across 23 developed markets. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

The S&P/TSX Composite Index is a capitalization weighted index that represents some of the largest float adjusted stocks trading on the Toronto Stock Exchange.

The FTSE Canada Short Term Bond Index is an index of Canadian bonds with terms to maturity of one to five years and rated “BBB” or higher.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the blended index since inception for each series is 11.1%.
- (4) The return of the MSCI World (Net) Index since inception for each series is 13.3%.
- (5) The return of the S&P/TSX Composite Index since inception for each series is 13.6%.
- (6) The return of the FTSE Canada Short Term Bond Index since inception for each series is 1.7%.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

Net asset value per security (\$)	12.33	11.85	10.80	10.78	10.77

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

IPC PRIVATE WEALTH VISIO GROWTH POOL

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2025

Series Information

Series	Inception/ Reinstatement Date	Minimum Investment (\$)	Management fee (%) ⁴	Administration fee (%) ⁴
Series A ¹	October 30, 2020	150,000	1.85	0.15
Series F ²	October 30, 2020	150,000	0.85	0.15
Series I ^{2,3}	October 30, 2020	150,000	—	0.15
Series Private Wealth ⁵	October 30, 2020	—	—	0.15
Series S ⁶	April 30, 2025	—	—	0.025

(1) Series A is the only series subject to sales charges. Securities may be subject to a negotiated fee of up to 5% at time of initial purchase.

(2) A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by the Manager from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor.

(3) The management fee for this series is equal to that of Series F but is payable directly by the investor to the Manager rather than by the Fund, generally through the monthly redemption of securities.

(4) The Manager may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors. Individual investors may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus.

(5) There are no management fees for Series Private Wealth. An investor must enter into an agreement to participate in a discretionary managed program offered by IPC Securities Corporation and agree to pay certain asset-based fees.

(6) This series is offered to The Canada Life Assurance Company for use in its segregated funds, but may be sold to other investors as determined by the Manager.
