

Interim Management Report of Fund Performance

For the Six-Month Period Ended September 30, 2024

This Interim Management Report of Fund Performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You may obtain a copy of the interim financial report or annual financial statements, at no cost, by calling toll-free at 1-877-216-4979, by writing to us at 255 Dufferin Ave., London, Ontario, N6A 4K1, or by visiting our website at www.counselportfolios.ca or the SEDAR+ website at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure. For more information, please refer to the Fund's Annual Information Form, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

IPC PRIVATE WEALTH VISIO NORTH AMERICAN EQUITY HIGH INCOME

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2024

Management Discussion of Fund Performance

November 8, 2024

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the performance and outlook of IPC Private Wealth Visio North American Equity High Income (the "Fund") in the six-month period ended September 30, 2024 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

During the period, "Manager" refers to Counsel Portfolio Services Inc. ("Counsel"), which is a subsidiary of The Canada Life Assurance Company ("Canada Life"). On October 1, 2024, Counsel was amalgamated with Canada Life Investment Management Ltd. ("CLIML"), whereupon the amalgamated company, named CLIML, continued as the Fund's Manager. The Manager has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of the Manager and Canada Life, for administrative services. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

Results of Operations

Investment Performance

The performance in the current and previous periods is shown in the *Past Performance* section of the report. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's Series O securities returned 0.8% (after deducting fees and expenses paid by the series). This compares with a return of 10.0% for the Fund's broad-based index, the S&P/TSX Composite Index, and a return of 10.8% for a blended index composed of a 50% weighting in the MSCI Canada High Dividend Yield Index (returned 14.4%) and a 50% weighting in the MSCI USA High Dividend Yield (Net) Index (returned 7.1%). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Canadian equities rose over the period despite volatility, with the financials sector and mining stocks leading market performance. In response to weak economic data and falling inflation, the Bank of Canada cut its policy rate in June, July and September. U.S. equities performed strongly over the period, driven by the information technology and communication services sectors. Moreover, the U.S. Federal Reserve cut its federal funds rate by 50 basis points, signalling its commitment to fostering economic growth. Defensive sectors, such as consumer staples and health care, lagged as fears of recession eased.

Within the MSCI Canada High Dividend Yield Index, utilities, financials and energy were the best-performing sectors, while consumer discretionary, communication services and materials were the weakest.

Within the MSCI USA High Dividend Yield (Net) Index, utilities, information technology and financials were the best-performing sectors in Canadian dollar terms, while energy, health care and communication services were the weakest.

The Fund underperformed both the broad-based index and the blended index, with stock selection in the energy and materials sectors detracting from performance. Relative to the broad-based index, stock selection in the consumer discretionary sector also detracted from performance, while underweight exposure to the industrials sector contributed to performance. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

Relative to the blended index, stock selection in the financials sector and underweight exposure to the health care sector contributed to performance.

Over the period, the Fund's exposure to the energy and consumer staples sectors increased, while exposure to information technology decreased, as a by-product of the bottom-up investment approach of the sub-advisor, Acadian Asset Management LLC. Changes to the portfolio included new positions in Suncor Energy Inc. and NetApp Inc.

During the period, the U.S. dollar ("USD") depreciated 0.14% relative to the Canadian dollar ("CAD"), detracting from the Fund's performance.

Net Assets

The Fund's net assets increased by 41.1% during the period to \$42.6 million. This change was composed primarily of \$0.5 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and an increase of \$11.9 million due to net securityholder activity (including sales, redemptions and cash distributions).

Fees and Expenses

The annualized management expense ratio ("MER") during the period ended September 30, 2024, was similar to the MER for the year ended March 31, 2024. Total expenses paid vary from period to period mainly as a result of changes in average assets. No management fee or administration fee, other than certain specific fund costs, is charged to the Fund. The MERs are presented in the *Financial Highlights* section of this report.

Recent Developments

With inflation fears receding, the sub-advisor believes central banks may cut interest rates more aggressively than previously thought. Consequently, looser monetary policies and stronger real income growth are expected to remain the key growth drivers in advanced economies. The sub-advisor remains focused on dividend-paying companies that are attractively valued, with high-quality balance sheets, positive earning trends and favourable price characteristics. These companies should be able to withstand expected heightened volatility in markets, while benefiting from the general trend of lower interest rates, in both Canada, where the Fund is underweight, and the United States, where it is overweight.

The Fund is expected to remain unhedged against foreign currencies subject to the Manager's discretion based on its assessment of currency market conditions.

Effective October 1, 2024, the manager, trustee, portfolio manager and promoter of the Fund, Counsel, amalgamated with CLIML, whereupon the amalgamated company, named CLIML, continued to serve as the manager, trustee, portfolio manager and promoter of the Fund.

Related Party Transactions

Management and Administration Services

Other investment funds managed by the Manager ("Top Funds") represent all of the Fund's investors. As a result, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. No management or administration fees are paid by the Fund.

Other Related Party Transactions

Top Funds invest in Series O securities offered by the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. As a result of these investments, the Fund is subject to large transaction risk as discussed in its initial Simplified Prospectus. The Manager manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. As at September 30, 2024,

IPC PRIVATE WEALTH VISIO NORTH AMERICAN EQUITY HIGH INCOME

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2024

Top Funds owned 100.0% of the Fund's NAV. As of September 30, 2024, the Manager had not received notice of any large redemptions. All related party transactions are based on the NAV per security on each transaction day.

The Fund did not rely on an approval, positive recommendation or standing instruction from the Counsel Funds' Independent Review Committee with respect to any related party transactions in the period.

Past Performance

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

Year-by-Year Returns

The following bar chart presents the performance of Series O of the Fund for each of the fiscal periods shown. The chart shows, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Series Information*.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2024

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the fiscal periods presented below. If during the period a fund or series was established or reinstated, "period" represents the period from inception to the end of that fiscal period. Series inception dates can be found under *Series Information*.

NET ASSETS PER SECURITY (\$)¹

Series 0	Sep. 30 2024	Mar. 31 2024	Mar. 31 2023	Mar. 31 2022
Net assets, beginning of period	12.19	11.39	10.81	10.00
Increase (decrease) from operations:				
Total revenue	0.22	0.45	0.44	0.30
Total expenses	(0.01)	(0.04)	(0.04)	(0.02)
Realized gains (losses) for the period	0.14	0.16	0.38	0.10
Unrealized gains (losses) for the period	(0.19)	1.03	0.34	1.04
Total increase (decrease) from operations²	0.16	1.60	1.12	1.42
Distributions:				
From net investment income (excluding Canadian dividends)	(0.09)	(0.17)	(0.28)	(0.09)
From Canadian dividends	(0.11)	(0.21)	(0.17)	(0.07)
From capital gains	–	(0.01)	(0.01)	(0.09)
Return of capital	–	–	–	–
Total annual distributions³	(0.20)	(0.39)	(0.46)	(0.25)
Net assets at period end	12.08	12.19	11.39	10.81

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

RATIOS AND SUPPLEMENTAL DATA

Series 0	Sep. 30 2024	Mar. 31 2024	Mar. 31 2023	Mar. 31 2022
Total net asset value (\$000)¹	42,607	30,192	13,438	2,901
Securities Outstanding (000)¹	3,526	2,476	1,180	268
Management expense ratio (%)²	–	–	–	–
Management expense ratio before waivers or absorptions (%)²	–	–	–	–
Trading expense ratio (%)³	0.25	0.33	0.39	0.30
Portfolio turnover rate (%)⁴	91.60	195.69	159.70	160.75
Net asset value per security (\$)	12.08	12.19	11.39	10.81

(1) This information is provided as at the end of the fiscal period shown.

(2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.

(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.
